About Company

SynerChi Organics is a brand dedicated to bringing you the most nutrient-dense and wholesome foods from around the world. Our products are sourced from sustainable and ethical sources, ensuring that not only are you getting the best for your body, but also for the planet.

Our range of superfoods is designed and blended to boost your health and wellbeing, from boosting energy levels, supporting digestive health, improving brain function and more. Whether you're looking for a convenient on-the-go snack, a healthy addition to your smoothie, or ingredients to elevate your meals, our superfoods have got you covered.

Some of our most popular products include hemp hearts, raw cacao, acai powder, maca root, super berries, greenchi, intelligent protein, chia seeds, and goji berries, just to name a few. These superfoods are rich in protein, antioxidants, vitamins, minerals, and essential fatty acids, making them a valuable addition to any meal.

At *SynerChi Organics*, we believe that food should not only taste good but also do good. That's why we're committed to making healthy eating accessible, affordable and delicious. Try us today and discover the power of nature's most nourishing superfoods and nutrients!

Milestones

2013

Ethical Sourcing Partnerships: We have successfully established partnerships with sustainable and ethical sources around the world and locally. The beginning...

By ensuring fair trade practices, supporting local communities, and prioritizing environmental responsibility, we have made a positive impact on the lives of those involved in the production of our superfoods as well as the market.

2015

Growing Customer Base: We have rapidly grown our customer base, with a diverse community of health-conscious individuals embracing our superfoods.

One of our most proud moments after 2 years of pursuing Kauai, we finally got our foot in the door. Our products have garnered positive feedback and loyalty, making SynerChi Organics a trusted and preferred choice for those seeking premium, nutrient-dense options from menu development to supplying all the right ingredients from the right sources.

2020

Positive Social and Environmental Impact: Through our commitment to sustainability, even through our worst times yet in C19, we have made strides in reaching health to the masses, reducing waste and promoting eco-friendly practices.

Our determination to share the powerful benefits so many have seen by using SynerChi Organics superfoods to help improve their lives. We ensure sustainable packaging materials are used where possible and focus on responsible sourcing has contributed to a more sustainable food industry, positively impacting the planet and inspiring others to follow suit.

This was also the year we got ourselves into the Doppio Zero group.

2023

With momentum finally back in action, **SynerChi Organics** is growing towards impacting peoples lives in a more healthy, powerful, positive trail, where each one of us becomes more of who we were always meant to be.
